ASUCD Unitrans Vehicle Wrap Policy and Guidelines

ASUCD Unitrans full vehicle wraps are available to internal UC Davis departments and external clients. Full vehicle wraps are limited to five total vehicles at any one time. To request information on vehicle wraps and availability, contact the ASUCD Unitrans Advertising Representative at advertising@unitrans.ucdavis.edu. Pricing is shown at the end of the guidelines.

Vehicle wrap graphics and design will be reviewed internally at ASUCD Unitrans and with City of Davis personnel for approval prior to finalizing an advertising agreement. Changes may be requested to the proposed wrap design which the client is responsible to respond to and update prior to finalizing an agreement. ASUCD Unitrans reserves the sole right to refuse and/or edit any advertising in accordance with its advertising policies at the discretion of Unitrans management.

The client is responsible for installation costs, removal costs, repair costs, and any damages to the vehicle due to installation, repair, or removal. Installation personnel or contractor will need to be approved by Unitrans staff prior to installation, repair, or removal. Vehicle cannot be out of service for more than 72 hours for installation, repair, or removal.

Corporate sponsored and co-sponsored advertising will be subject to market pricing and pricing will be published in the Unitrans Advertising Guidelines and Rates document each year. The guidelines are available at https://unitrans.ucdavis.edu/about/advertising-with-unitrans/

Reduced rates may be available to clients promoting student focused activities and services that do not have corporate sponsorship. Reduced rates will be reviewed on a case-by-case basis.

In general, vehicle wraps must be sensitive to the community environment.

ASUCD Unitrans is the only entity that can sell, barter, reduce prices or execute an agreement. Prior to
an approved agreement, ASUCD Unitrans reserves the right to make adjustments to policy at any time.

Other Considerations:

• Material - The exterior wrap must be printed on 3M IJ40C with a gloss laminate using a Roland
Solvent Ink or similar materials to not damage the paint on the bus or approved equal.
• Windows, doors, and vents - Driver window, windshield, and front door may not be wrapped.
Other windows may be wrapped but material must allow for people inside the vehicle to see
outside (opaque wrapping). Client should consider locations of windows, window frames, and
vents. Vents cannot be covered and vents cover significant portions of the rear and rear sides of
the bus. Bus windows are operable and may change the intended look of the design if the
windows are open. Windows are mandated to remain open currently due to COVID-19 protocols
and air flow requirements.
• Required exterior decals/markings - Full wraps must incorporate ASUCD / City of Davis Unitrans
logo, vehicle number, and CHP number on front, both sides, and back in approximately the same
place and same size as the bus without a wrap. Required markings and logo will be provided by
Unitrans.
